ABOUT ME

I am a final-year Diploma in Computer Engineering student with a passion for programming, web development, and AI/ML. I enjoy learning new technologies, creating practical projects, and enhancing my technical and problem-solving skills. I am looking for an opportunity to start my career, gain industry experience, and grow as a software professional.

EDUCATION

2023-24 **Class- X**
Dyal Singh Public School, Jagadhri(CBSE)

2024 - 2027 **DIploma in Computer Engginering**
Seth Jai Parkash Polytechnic, Damla(HSBTE)

EXPERIENCE

Certifications
HARTRON – CCWDM (6 Months)
Course: Certificate Course in Web Development

- Completed a 6-month CCWDM course from HARTRON.
- Learned fundamentals of web development and website design.
- Gained practical knowledge of HTML, CSS and JavaScript.

C Programming Training
Hartron Skill Centre
45 Days Training

- Learned the fundamentals of C programming and problem-solving.
- Developed console-based applications using loops, functions, arrays, pointers, and file handling.
- Improved debugging, logical thinking, and coding skills through practical assignments.
- Gained experience in writing clean, structured, and efficient C programs.

AI & Machine Learning Training
Alpha IT Managed Services Pvt. Ltd.
45 Days Training

- Learned the fundamentals of Artificial Intelligence and Machine Learning.
- Worked with Python and libraries such as NumPy, Pandas, Matplotlib, and Scikit-learn.
- Built and evaluated basic machine learning models, including Linear Regression, Decision Tree, Random Forest, KNN, and Clustering.
- Performed data preprocessing, visualization, model training, and performance evaluation.
- Completed hands-on projects using Google Colab and real-world datasets.

SKILLS

- HTML5
- CSS 3
- Java Script
- Numpy
- Pandas
- Data Structure
- Matplotlib
- Python
- Machine Learning(ML)
- Artificial Intelligence(AI)

PROJECTS

1. Personal Portfolio Website
Technologies: HTML, CSS, JavaScript

- Designed and developed a responsive personal portfolio website.
- Showcased skills, projects, education, and contact information.
- Implemented interactive UI with responsive design and animations.

2. Video Translator Application
Technologies: Python, Flask, HTML, CSS, JavaScript, Whisper, Google Translator, Edge TTS, FFmpeg

- Developed a video translation application that automatically transcribes video audio and translates it into the selected language.
- Implemented AI-based speech recognition using Whisper and text translation using Google Translator.
- Added natural voice-over generation using Edge TTS and integrated the translated audio with the original video using FFmpeg.
- Designed a user-friendly interface for video upload, language selection, processing status, and downloading the translated video.
